This bibliography was compiled to recognize the school's scholarly activity, including journal articles, published meeting abstracts, book chapters, books, and other works written by OUWB faculty, students, and staff. It was created by searching the institutional affiliation fields in PubMed, Scopus, Web of Science, EMBase, CINAHL, MedEd Portal, SpringerNet, Google Scholar, and Google Books for all citations published in the 2017 calendar year. It was updated and supplemented with additional citations from the Beaumont Research Institute published its 2017 Report of Accomplishments. Citations were downloaded into an EndNote database, enhanced, and reformatted for this report. Because of search limitations, the report does not represent an exhaustive list of all published works by OUWB authors. If your publication was inadvertently missed, please email the citation to the Medical Library at medref@oakland.edu. For any questions please call the Medical Library at (248) 370-3772.
